

**WHAT IS CLAIMED:**

1. A novelty kit for providing decorative and disposable fashion wear for body parts that also protects the decorated body parts from abrasion, comprising:

- 5                   a) a flexible, trimmable pad having top and bottom surfaces;  
                    b) an adhesive material on said top surface for removably securing  
                    said pad to a body part;  
                    c) a decoration to be applied to said bottom surface; and  
                    d) a removable layer covering said adhesive material.

10

2. A method of decorating and protecting a body part comprising the steps of:

- a) furnishing a flexible pad having a top and bottom surface;  
                    b) providing an adhesive on said top surface and a peelable film to  
                    preserve said adhesive until used;  
15                   c) providing decoration selected from at least one of the group  
                    comprising color, pattern, graphic design, text, advertising,  
                    relief design, and texture;  
                    d) trimming said pad to a desired shape to apply to at least one  
                    body part selected from the group comprising feet, hands,  
20                   knees, and elbows, and parts thereof;  
                    e) peeling said film from said adhesive and applying said pad to a  
                    selected body part.

20

3. The invention of claim 1 further comprising a reusable adhesive.

25

4. The invention of claim 1 further comprising pre-formed, cupped pads for at least one of toes, knees, elbows, and animal pads.

5. The invention of claim 1 further comprising material selected from  
30 cushioning, magnetic material, and gel disposed in said pad between said top and bottom surfaces.

6. The invention of claim 1 further comprising the addition of a first layer of  
thistle cloth to at least a portion of said bottom layer and a protective shell having a  
second layer of thistle cloth to engage said first layer of thistle cloth and means for  
5 absorbing the shock of a blow to said shell.

7. The invention of claim 1 further comprising means for adapting said pad to  
apply to the feet of animal pets.

10 8. The invention of claim 2 further comprising a reusable adhesive.

9. The invention of claim 2 further comprising pre-formed, cupped pads for  
at least one of toes, knees, elbows and animal pads.

15 10. The invention of claim 2 further comprising material selected from  
cushioning, magnetic material, and gel disposed in said pad between said  
top and bottom surfaces.

20 11. The invention of claim 2 further comprising the addition of a first layer of  
thistle cloth to at least a portion of said bottom layer and a protective shell having a  
second layer of thistle cloth to engage said first layer of thistle cloth and means for  
absorbing the shock of a blow to said shell.

25 12. The invention of claim 2 further comprising means for adapting said pad  
to apply to the feet of animal pets.
